THE coming of the opera "Thais" has caused quite a little amusement in the pronunciation of the name or title role of the opera.

Shakespeare's immortal "Anthony and Cleopatra," made famous, centuries ago, the beauty and power of Cleopatra, but it remained for the present age to immortalize the beautiful Thais, first in Massenet's opera and now in painting. In the tea room of Marshall Field's in Chicago there is a wonderful painting of Alexander the Great carrying Thais while she sets fire with a torch to the palace of the Persian kings at Persepolis during a festival.

The Athenian courtesan, famous for her wit and beauty, who accompanied Alexander the Great on his expedition into Asia, is the heroine of Massenet's French grand opera. "Thais," and I notice the musicians pronounce it Tie-ees, or, pronounced quickly, it sounds more like "tee," or almost like "tights." A prominent woman of this city said, "Oh, I'm so delighted that I am going to see Mary Garden in 'Thais.'" "That is not nice, my dear daughter," said her demure mother, "to want to see any one in tights."

Girls! Draw Moist Cloth Through Hair

Try this! Hair gets thick, glossy, wavy and beautiful at once—Stops falling out.

Immediate!—Yes! Certain!—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few week's use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.—Advertisement.

WAIT FOR THE YOUNGER MEN

Bishop Oldham Says Philippines Not Ready for Self-Government.

SCHOOL SYSTEM NOT PERFECTED

Younger Men Are Instilled with the Proper Ideas, but There Are Not Yet Enough of Them to Rule.

"While I greatly admire President Wilson and Secretary Bryan, I do not believe they started out with all that could have been known about the Philippine situation," said Bishop William F. Oldham, formerly of the Philippine Islands, in his address before the Commercial club at the public affairs luncheon at noon. He said that, however commendable the movement for Philippine independence might be, he believed in waiting a little longer, until the younger men educated in the American schools there shall become the leaders in the affairs of the islands.

"While I heartily approve holding before the Filipinos what has been held before them for some years now, that they are being progressively trained for independence, I hold that they are not yet quite ready for it. The leaders in affairs there are as yet the old Spanish speaking class, who hold the old oligarchic ideas implanted there by Spain. They hold to the 'follow the boss' idea, is it were. That is the kind of idea planted there by the Spaniards and the kind of idea to which the Malays adapted themselves readily. That idea as a dominant force has not yet disappeared among the leaders over there.

"On the other hand, I believe we should wait until the younger men, trained in the American schools over there and brought up with more democratic ideas shall come into leadership before we grant them independence. As much as we have done in the way of establishing schools in the islands, we have not yet provided two-fifths of the people there with schools, and the Filipinos, if they are granted independence, are not ready to go ahead with the school system. The people there, as a whole, are not ready to spend money for the maintenance of schools. And the result would be that instead of the school system being pushed and completed, the little we have established in the islands will crumple up."

ADAMS HAS GRASSHOPPERS AS INDICATIVE OF SPRING

Four live grasshoppers were captured south of Waterloo by Louis Adams, county engineer, on a trip which he made for the purpose of inspecting a bridge. At the court house the insects were hailed as a harbinger of early spring. Mr. Adams declared that he saw scores of grasshoppers and still retains the four specimens, securely caged, as a token of veracity.

"Food Fads"

The Government has issued a timely warning against the food faddists who are offering to cure all sorts of ailments with strangely concocted food preparations that are supposed to supply the needed elements for restoring wasted tissue and energy.

Shredded Wheat

is not a "food fad". It is the one universal, staple breakfast cereal that has survived all the ups and downs of public fancy. It will not cure disease, but its continued use will keep the stomach sweet and clean and the bowels healthy and active. It will correct many digestive disorders and thus restore health and strength through proper nutrition—a food for invalids and athletes, for outdoor men and indoor men. Ask your grocer.

Always heat the Biscuit in oven to restore crispness. Two Shredded Wheat Biscuits with hot milk or cream will supply all the energy needed for a half day's work. Deliciously nourishing when eaten in combination with baked apples, stewed prunes, sliced bananas or canned or preserved fruits. Try toasted Triacuit, the Shredded Wheat wafer, for luncheon with butter, cheese or marmalade.

Made only by The Shredded Wheat Company, Niagara Falls, N. Y.
